# For the Children

A Little Valentine Girl With a Great Big Heart.

Photo by American Press Association.

The young lady in the picture surely has gone to a great deal of trouble with her valentine. Just think what an amount of work and patience were required to fashion such a large and beautiful heart! She is evidently pleased with her handiwork. The expression on her face shows that. Of course she must have made it all by herself! She wouldn't look so happy otherwise. Wonder who she intends it for? Perhaps for papa or perhaps for mamma. More likely it is for mother. although it is hard to tell. Anyway, whoever gets it will be overjoyed. for who could help being happy when such a charming little girl remembers them so lovingly on Valentine morning?

Lincoln and the Boy. Here is a story of Lincoln and the children:

When the president was in Springfield. Ill., he met a little boy who was introduced to him and allowed to shake the great man's hand. Of course the boy boasted of this honor among his schoolmates, who wouldn't believe making his life miserable by their unkind speeches. Young America. however hurt he felt, was not going to be put down by a little thing like that. No, indeed! He sat down and wrote a letter to Lincoln telling him White House has no appeal for Mrs. his trouble. After swhile he received a letter which is still preserved. It read:

Executive Mansion, March 19, 1861. To Whom It May Concern I did see and talk with Master George

Evans Potter last, May at Springfield, Ill. A. LINCOLN. Respectfully.

From that time young George, instead of being laughed at, became the envy of the other boys. The part of the story that most interests us, however, is that Lincoln at this anxious time, amid the thousand things demanding his attention, should have found time to heed the unimportant request of a schoolboy. It shows us that Lincoln hated all injustice, however humble the object of it might be.

Lincoln, the Kind Hearted.

When Lincoln visited Fortress Monroe in 1863 his attention was called to a narrow door, bound with iron, the use of which he was anxious to learn. "What is it?" he asked.

"Oh, that is the sweat box." was the reply. "It is used for refractory sailors. A man in there is treated to a big dose of steam heat and has very little ventilation. It brings him around pretty quickly."

Lincoln, ever merciful, demanded that he be allowed to try the treatment to which thousands of American sailors were subjected yearly.

Taking off his hat-for he was several inches over six feet in height-he entered the inclosure, which he found to be little more than three feet in length or width. At a signal from him the door was to be opened. It was then closed and the steam turned on. He had been inside hardly three minutes before the signal was given. President Lincoln had experienced something he had never known had existed before. Turning to Secretary Welles of the navy department, he ordered that no such inclosure as the sweat box should ever be allowed on any vessel flying the American flag.

Conundrums.

Why are bakers the most self denying people? Because they sell what they knead (need) themselves.

What relation is that child to its own father who is not its own father's own son? His daughter.

When does a pig become landed property? When it is turned into a mead-

> Making Valentines. All the year we save up things Cut from papers, hearts and rings, Little boys called Cupids, too, And all sorts of flowers will do.

Then we take some paper white, And we scalled it just right, And across the top we write Some nice line that reads like this:

"To my sweetheart, with a kiss." Now we're ready to begin, And we paste a Cupid in And perhaps a wreath and dove,

With a scroll which says, "True love."

We pick out from all the rest One for mother that is best, and we write, "Our hearts are true, Dearest Valentine, to you." -Alice T. Curtis in Youth's Companion NEW WALKING COAT.

A Touch of Sportiness In This Spring Model.

CHECKED COAT IN THREE QUARTER LENGTH

Silk frocks and tailored street gowns of light weight wool and other seasonable materials will be covered in the street next spring by good looking walking coats in three-quarter lengths.

The coat illustrated is a stunning affair of this genre, made of checked worsted with plain cloth trimmings. It is decidedly smart and snappy.

The Next Mistress of the White House.

With the outgoing of Mrs. William Howard Taft, whom the country has loved and honored, there will go into the White House four most attractive women, the president's wife and his three charming daughters.

It has been said that no more refined. unassuming and considerate leaders of the social set have entered Washington in many days than will be these four.

Mrs. Wilson has never essayed to social leadership. She has been much in social life, both as the wife of a university president and mistress of a gubernatorial mansion, but her home is her life. The social glamour of the Wilson and her daughters, although they are admirably fitted for the high social position. Mrs. Wilson is democratic in manner and life as well as in politics. Her daughters, it has been said, are not only like their mother, but also resemble their distinguished fa-

Simple tastes, simple demands, simple living without frills or pretenses, will be their part. Mrs. Wilson was the daughter of a Presbyterian minister, and she has never departed from her "raising." Her ideals of life are high and religious. She is a wide reader and an entertaining talker and an artist of considerable ability. The charms of the three daughters will readily make for them a place in the hearts of Washington society and of

the nation.

Margaret Wilson, the eldest, is twenty-six. She is probably the plainest of the three sisters. She is a short, siender, blond girl, wiry and vivacious. She loves golfing, fishing or a dashing game of tennis or baseball. She dances gracefully, rides horseback, swims, plays basketball and tells stories and converses as delightfully as her father. Miss Margaret is the musician of the family, with ambitions to make her career on the concert stage. The White House will probably not alter her plans, as she is devoted to her

Miss Jessie, the second sister, is the beauty of the trio and also the more serious. She is a social settlement worker and the youngest member of the nation board of the Young Women's Christian association.

Eleanor, the 'baby," is the only one who bears a nickname. To her family and to her intimates she is "Nell" Tall, dark and attractive, she is often taken for the oldest of the Wilson sisters. For the last two years she has been studying art at the Philadelphia Academy of Fine Arts. Miss Eleanor is as lively as her eldest sister and brimful of fun.

The next second lady of the land, Mrs. Thomas Riley Marshall, wife of the vice president elect, is not a suffragette, but she is probably one of the cleverest women politicians in the country. She and her husband have never been separated a night through their fifteen years of married life. Mrs. Marshall also enjoys the distinction of being the only woman to accompany her husband as a gubernatorial candidate from one end of Indiana to the other on a speechmaking tour. She is a woman of keen literary appreciation. and the executive mansion at Philadelphia is full of books, but devoid of bookishness. Somebody has said of her home that it is the kind to make you "just want to sit down and stay to supper."

Woman Mayor. Miss Clara Munson has been elected mayor of Warrenton, Ore., on the citisens' ticket. She is the first woman chosen to such an office in Oregon. She won by a majority of 16 votes.

AN ACUTE ABSCESS.

The Way It Forms and the Way It Should Be Treated.

An abscess is a swelling that contains pus. It may be either acute or chronic, and it may either be deeply seated in the body or it may appear upon the surface. The chronic or "cold abscess" is generally of tuberculous origin, whereas the acute or "hot abscess" is the result of an infection by the pus microbes.

The acute abscess comes on suddenly with all the signs of severe inflammation-heat, redness, swelling and presently, as the pus forms, a throbbing pain. The sufferer often feels ill and has a slight degree of fever. In three or four days the abscess begins to soften, and the pain diminishes because the surface skin is being destroyed and the tension upon the sore spot is not so great. By and by there is only one layer left, through which the pus can be seen. This thin layer soon ruptures, and the pus escapes. Relief is immediate, and healing soon begins.

When the inflammation is deeply seated the affair is more serious. In such cases the pus may burrow until it invades some vital structure—the peritoneum or the brain, for instanceand a fatal result is not impossible.

The treatment of abscesses has changed much in late years. Formerly the acute abscess was allowed to form and break without surgical interference unless it threatened life or caused too much distress. Now the physician does not wait for it to pass through the natural stages. As soon as it appears he makes an incision and releases the poison before it has a chance to cause the formation of pus. He cleans the cavity thoroughly and keeps it continually moistened with an antiseptic solution. It must be allowed to drain freely, and moist antiseptic dressings should be applied while the wound is healing.-Youth's Companion.

#### PUDDLES OF SILVER.

Crude Methods That Are Used at the Mines In Mexico.

It was at Pachuca, Mexico, that the patio system of separating silver had its origin. This system is still followed extensively at the silver mines throughout Mexico. The ore is crushed and worked down to a state of puddle. It is then spread out to a depth of two or three feet over the paved floor of the courtyard, or patio. To this mass sulphate of copper is added in powder, about fifteen pounds of sulphate to 3,000 pounds of puddle. This is trodden into the puddle by horses. Several gangs of old, worn out horses or mules, about twelve in a gang, are seen in various parts of the patio, bethe sulphate.

On the next day 6 per cent of com or as much as the assay of the ore shows is required. This mass is then trodden up by horses for fifteen days. It is then wheeled to a large tank through which passes a rapid stream of water. This washes away the clay, leaving the silver and quicksilver. This residuum is poured into cone shaped canvas bags through which most of the quicksilver runs out, and what remains with the silver is passed off with the vapor by means of heated

None of the quicksilver is lost, and even the vapor is brought by cold water to its original state and used again and again. The quicksilver soon rots the hoofs of the horses and the mules, but the Mexicans themselves do not seem to be much the worse for it, even though they wade around in the puddle for days at a time.-Harper's Weekly.

A Cinder In the Eye. Who hasn't had difficulty in dislodging a cinder from the eye? Sometimes one can succeed with a corner of a handkerchief, but frequently the cinder is too deeply imbedded to be got out in that way. It would be hard to find a more sticky substance than chewing gum. The next time you see any one with a cinder in his eye just chew a piece of gum till it becomes soft and pliant, twist it to a fine point and you will find as soon as you touch the cinder with it out the cinder will come.-Leslie's.

What Women Are Doing. Mrs. Joseph Linden Smith is the sec-

retary and moving spirit in a handful of Bostonians who about a year ago banded together for the purpose of reducing the cost of living for their immediate families. Their plan was very simple, consisting only in buying in quantities and directly from the producers. Immediately after their return to town in the fall of 1911 the promoters of the scheme met at one of the homes and a systematic plan was worked out.

The first step was to offer to the farmers in a New Hampshire neighborhood where one of the promoters had a summer home a flat price for all their dairy, poultry and farm products during the winter. This price being somewhat in advance of current prices, the farmers accepted the offer. At first all shipments of supplies were received by one of the thirty members of the cooperative club; then gradually as things took more definite shape a small store was found. To the eggs, chickens, butter, apples and potatoes with which the ing driven round in circles to tread in club started other necessaries were added.

In some of them the soap is only of a mediocre quality; in others it is of the best. In the latter class there is a soap bowl containing a soap which has won great favor with fastidious women. It is delightfully perfumed, not too strongly, but subtly and delicately, with a sweetness which is most appealing. These soap bowls, with a whisk, sell for \$5, \$7.50 and \$8.25, according to the size of the bowl.

Writing her memories of Anton Rupinstein in Harper's Magazine, a former pupil tells a strange story of the reat planist's death.

One wild and blustery night I found myself at dinner alone with Rubinstein, the weather being terrific even for St. Petersburg. The winds were howling round the house, and Rubinstein, who liked to ask questions, inquired of me what they represented to my mind. I replied. The mouning of lost souls.' From this a theological discussion followed.

"Six years later in Paris I woke one night with a cry of agony and despair ringing in my ears, such as 1 hope may never be duplicated in my lifetime. Rubinstein's face was close to mine, a countenance distorted by every phase of fear, despair, agony, remorse and anger. I started up. turned on all the lights and stood for a moment shaking in every limb till I put fear from me and decided that it was merely a dream. I had for the moment completely forgotten our compact. News is always late in Paris, and it was Le Petit Journal, published in the afternoon, that had the first ac-

### WINTER AND WAR

Bitter Cold as a Factor in the Campaigns in Europe.

ARMIES WRECKED BY FROST.

In Most of the Great Conflicts For a Century Past loy Weather Has Played a Prominent Part-Napoleon's Disastrous Invasion of Russia.

War is bad enough under the best of elimatic conditions, but when war and is wise he will surrender to the extorbitterly cold and icy weather mix the tion rather than disturb the domestic suffering is woefully intensified. And yet there has hardly ever been a European war on a big scale in which General Jack Frost has not taken a hand.

Go back a century. Eighteen hundred and twelve was the year when Napoleon made up his mind to invade Russia. Before starting he was careful to inquire of the experts at what date winter usually set in in southern Russia. They told him the middle of December.

It was on June 24 that he invaded Russia with 600,000 men, and he reached Moscow on Sept. 14. That night city was burned to the ground. Even then he remained until Oct. 18 before commencing his retreat.

known for three generations. The Thames froze from its source to the atic, off Venice, was seen the amazing our "crown" piece. But she is so thorsight of floating ice floes. The Dardanelles and nearby waters were frozen. Jack Frost's icy finger lay heavy even upon North Africa. Drift ice appeared in the Nile, and there were snowstorms in Tripoli and Morocco.

As for Napoleon's huge army, it was ed, and when at last, on Dec. 6, Napoleon reached German soil, out of his whole vast host but 130,000 men were left alive.

#### Napoleon's Piano.

A curious footnote to history is found in G. L. de St. M. Watson's book, "A Polish Exile With Napoleon," to the effect that the emperor's evenings at St. Helena were solaced with music from a piano which was imported from England at a cost to Napoleon himself of £122 (\$610). The musician was per haps Mme. Bertrand. At any rate, the piano was bequeathed to her and was removed by her from the island after Napoleon's death.

#### WOMEN AS GAMBLERS.

They Are Noted at Monte Carlo For Coolness and Luck.

The women gambiers at Monte Carlo are by no means the excitable, hysterical and unscrupulous players that have been described to us. Many are unscrupulous and dishonest, but they are usually calmer than the men. There are women who will pick up your winnings under your very nose, asserts the London Chronicle, and if you protest the croupier will probably pay the money again rather than have a disturbance. There are other women who will sit beside a man and openly claim a part of his winnings, and if the man bliss. But, as a rule, the women gamble with equanimity, and how extraor dinarily lucky they are, to be sure!

Women have wonderful luck. While men work out elaborate "systems" and sit frowning over figures, the mysteries of which would take a very Napoleon of finance to elucidate, and then play -and lose, women simply plank money on the number they are "sure is going to win," and they do win!

It is not at all an uncommon thing to see a woman sitting against the wall. her husband by her side, waiting to put pieces on at her command. While fire broke out, and within five days the he trots to and from the tables, telling her what numbers turned up last, fussing and fuming and worrying what to do next, she calmly surveys the figures In the last week of October began she has jotted down, gives him another the worst frost which Europe had "piece" at the psychological moment to put on, and her big velvet embroidered bag grows wider in circumference evsea. Augustus of Poland and His Saxon Captain Were Strong.

#### BUT THEY MET THEIR MATCH.

The Young Swedish Count Whom They Sought to Impress With Their Feats of Strength Took a Hand In the Game Himself and Dazed the King.

On a bitterly cold evening in February, 1707, a little company of Swedish dragoons, huntsmen and grooms leading extra horses rode across the drawbridge of the castle of Liebeverda, on the banks of the river Elster, in Saxony. They were evidently expected, for the officer who headed the huntsmen was conducted into a brilliantly lighted chamber, where was gathered a large company of men at arms. His glances around the room told him that a drinking bout was in progress, and in the center of the gay gathering the visitor beheld the former king of Poland-King Augustus, a title he afterward regained.

Advancing to the place where the rellicking, royal personage sat steeped in wine, the Swedish officer, a young man, but tall and broad shouldered, reported that his master, King Charles of Sweden, would arrive at the castle the following morning to take part in the boar bunt to which he had been in-

Whereupon the ex-king, looking the young Swedish nobleman over with appraising eye, frowned, then recovered his composure as he noted the skill with which the messenger addressed him without once using the title of "majesty." He was happy, he said complacently, that King Charles was coming, and he added, "I have been told that Count Gustaf Bertelskold"for this was the noble messenger's name-"was a valiant participant in my royal friend's boar hunt."

As the evening wore on the company became noisier and the wine flowed more freely until at length August, with a gesture that commanded attention, took from the table a silver plate. Without apparent effort he bent the plate to a roll in his right hand and

tossed it as drink money to a servant.
Loud cries of "Bravo!" followed this
princely achievement. The example challenged imitation. A stockily built Saxon cavalry captain took from his the tablecloth, he laid the coin on the table and with a mighty blow of his fist drove the coin so deep into the oaken surface of the table that it stuck there. New shouts of applause shook

even the heavy beamed ceiling. horseshoes brought in. Looking them over carefully, he selected one that suited him and passed it round the company so that all could see it was strong and perfect in every way. Then backward and forward in the middle, broke it in two equal pieces and held them out in either hand to show his muscles were harder than iron even.

Shouts of approval rose louder than ever, goblets were filled and emptied again, and the stocky Saxon cavalry captain was heard to proclaim that the king of Poland should one day break his enemies' weapons as easily as he breaks an iron horseshoe, at the same time giving the Swedish count a knowing look.

Count Bertelskold rose to go, this being the only reply he considered appropriate. But the aggressive Saxon captain blocked his way and shouted:

"Upon my honor, I believe the little Swedish count is afraid of us. Gently, gently, my young friend. Your delicate fingers would certainly never break a horseshoe in two. Drink, drink, I say, to the health of his majesty the king of Poland!"

Count Bertelskold's hand went to his sword hilt like a flash. But he checked himself, seized a goblet and, draining it to the last drop, exclaimed: "At the request of this gentleman I drink to the prosperity of his majesty King chairman of the comic supplement-Stanislaus. May he live long and reign happily." No deeper insult could have been offered, for it was King Charles of Sweden who had caused Stanislaus to be chosen elector of Saxon in place of Augustus.

"Draw." shouted a Polish nobleman, confronting Count Bertelskold, "or, by heaven, I will write this toast, letter for letter, in red upon your blue coat!" It was King Augustus who interrupted with the gentle reminder that the

Mrs Sulzer Silent Partner of New York's Governor.

@ 1913, by American Press Association.

#### MRS. WILLIAM SULZER.

When asked just before she went to Albany to preside at the gubernatorial mansion what she was going to do as first lady of the state of New York Mrs. Sulzer instantly replied: "Just what I am doing now-trying to make a good home for Will. We will live the simple life in our new position just as we have in the past, and if friends come in when we have pork and beans for dinner they must enjoy the pork and beans or go elsewhere. There will be no \$5,000 dinners given in our home at Albany. Our home will be a real home. There will be no frills about it. Mr. Sulzer and I have no social aspira-

In appearance Mrs. Sulzer is rather he stood up and, bending the shoe above medium height, graceful and with an urbanity that detracts nothing from the impression of force one gets from conversation with her. Her voice is well modulated and her diction remarkably clear. Mrs. Sulzer before her marriage was a trained nurse. which probably accounts for the soft, low voice—that most excellent thing in one of the nursing profession.

Mrs. Sulzer is the type of woman best fitted for the helpmeet of a man of strong ambitions like the Democratic governor. She is difficult to interview, for she insists upon keeping her own personality in the background. When her husband's name is mentioned her face at once lights up with interest and pride, but try to get her to speak of herself and she becomes at once as mum as the proverbial clam.

The distinction of having first taken up the work for the improvement of the comic supplement is claimed by the League of American Pen Women, of which Mrs. Josiah Quincy Kern of Washington as president. Hair During Illness

Whenever a person is ill at home one of the points most likely to be neglected is the care of the hair. In a great many cases women recover from an illness of only a few days to find their hair so snarled and matted that it almost is impossible ever to remove the tangles.

If on the first day of an illness the hair is properly taken care of there need be no occasion for this condition. The hair should be parted down the center and braided in two braids. The braids should commence far enough toward the front that the patient will not lie on them when the back of her head is on the pillow. The hair should be combed at least once a day. The patient should lie on her side, and then one-half of the hair can be dressed without any trouble, no matter how sick the patient may be.

In combing the hair one should commence at the ends, gradually removing the tangles by working upward. If the hair is grasped by the left hand between the roots and the part being combed the patient will not complain

of the pulling. If the hair is badly tangled olive oil may be applied, which will greatly lessen the labor. Where the matting is extensive it is not best to try to comb out all tangles at once, as it would be too much of a tax on the patient. few strands can be separated at a time, then braided so as not to become

tangleti again. When a patient is compelled to lie in bed for a number of weeks the hair may be washed without much inconvenience and without danger to the patient. The pillow should be well protected by a rubber sheet and the patient moved as near the edge of the bed as possible. Two basins of rather hot water, one containing the shampoo mixture and the other for rinsing, should be in readiness. One side of the hair should be washed at a time. then rinsed well. The hair and scalp may be nearly dried very quickly with several towels. After the shampoo oughly dry. A little alcohol may be

Have You a Pretty Back?

The woman is to be pitied who, no matter how beautiful her face or form. lacks the modish back, with its wonderful curves and rounded lines. Of no part of the body is it quite so true that curves are the lines of beauty as it is of the back.

If you chance to possess a back that is all angles instead of curves then it is evident that you must eschew decollete dresses, as for the next few months frocks cut so as to expose a goodly portion of the back will be all the rage.

The back that fascinates the eye is slender, but not thin. It is overlaid with a veiling of firm white flesh. It slopes gently into the waist line by almost imperceptible degrees. Have you such a back, lady fair?

One thing that every self respecting back should have is a dimple in the center of each shoulder blade. If your back is dimpleless it might be a good idea to treat it to a fifteen minute massage with cod liver oil every night, as this fattening treatment will bring dimples if anything will.

Since the back to be pretty must be white and satiny the wise little maiden scrubs it nightly with a bath brush fairly dripping with hot soda water. What kind of water is this? Simply water to which have been added two heaping tablespoonfuls of ordinary baking soda and a small handful of shredded soap. This simple skin cleanser and whitener does masterly work. Try it and see if you do not agree.

#### Treatment For Fine Skins.

Some girls have such fine skin tha during the cold weather it is necessary for them to wear a veil almost all the time to keep it from chapping. If a protective agent such as powder be used it is absolutely necessary that it be pure, as the more delicate the skin the more care must be exercised in what is used upon it.

The following preparation is most valuable. If properly applied it will protect the skin:

Mix and sift together several times until free from lumps three ounces each of rice flour and rice starch, one and one half ounces of carbonate of magnesia, one quarter of an ounce of finely powdered orris root, half an ounce of boric acid and ten drops of essence of rose.

Before applying to the face all the skin should first have a previous ap-Dication of a thin film of cold cream or

#### What's Up?

We wonder what a bunch of busy bodies is aiming at in a bill now pending in Mass. Legislature. Is it merely an attempt to achieve notoriety, or is there an ulterior and not a good purpose behind the move? We refer to Senate Bill No. 106, whose title reads, "to exclude 19th of April from the list of legal holidays and to provide that May 30th shall be known as "Patriots' Memorial Day."

When "Fast Day" observance was abolished, April 19th was chosen as a substitute and named, "Patriots' Day," the change seemed to us a sort of ideal solving of a difficult matter and we can conceive of no argument in favor of dropping this spring holiday, worthy a moment's consideration.

Woe to the people when they foregt the devotion and sacrifice of the men who had the courage to force the close-barred door opening into the high privileges that are the birthright of the American citizen of to-day. They were intelligent men, they were in the main well educated, they the intelligent, educated loyer of God and home holds dear the patriots of 1775 pledged to the cause of human freedom in their protests to King and Parliament and then bared their breasts to the leaden hail of the tyrant. It was a splendid exhibition of heroism, all the more so because they realized the full import of their acts. To cheapen these acts of devotion by coupling it with any other historic event, however grand, would be something worse than a mistake.

Memorial Day and its observance grew from far different circumstances and environments; its accepted form of observance is as unlike as can possibly be, and of an ideal kitchen for a suburban home. to combine it with our Patriots' Day could There is also a well illustrated article on only result in weakening and finally destroying the true significance of both.

So far as we can sense the situation from information at hand, it appears that labor leaders, having failed to tie up the great railroad systems in the easterly section of the country, through a strike by the engineers, have turned their attention to the less intelligent and more easily influenced firemen. The engineers agreed to arbitrate and a joint commission came to an amicable adjustment. The railroads have offered to do the same with the firemen, but instead of accepting this offer, a vote on ordering a strike is being taken. authorities in curtailing student tickets so as to shut off all students of higher educational institutions, is more far reaching in its effect than has yet been apparent. According to a representative of the State Board of Education, ten state normal schools, maintained in various sections of Massachusetts, will be seriously crippled in their attendance by this act. These schools are attended largely by young women living at home, in many cases of very moderate circumstances. In fact it is stated that about fifty percent of those who choose the normal schools as a vehicle for attaining a higher education, do so because, while ambitious, they are unable to pay the tuition required in other classes of professional schools. The State maintains these normal schools and there is no expense other that the railroad fare in attending. For years a special student's rate has been in force. In an address delivered in New York on Monday, Justice Wesley O. Howard of the Appelant Court, while arguing that recall of judges and judicial decisions offered no remedy, remarked that "revolution of the courts impends, unless the courts purge themselves of outworn methods, and thus quell the merited impatience of the masses." In closing his address Justice Howard said :-

"Let us not deceive ourselves; the spirit of recall is spreading, the impatience of the masses grows deeper. Something will happen. Unless the judges act, the people will act; if they do not resort to the recall they will revise the constitution and create new courts; courts to do rough justice; courts to do summary justice; courts close to the common people; courts without technicalities, sophistry and delay; and where substantial right prevails.

Newton residents and many from the surrounding cities and towns to the number of 3000, honored United States Senator-Elect and Mrs. John W. The popularity of the new Senator was clearly shown by the crowd that thronged the hall, eager to extend their wishes to Senator-Elect and Mrs. John W. Weeks. The affair arranged by the City Government, proved one of the most gorgeous events ever conducted by the municipality.

At the morning service, last Sabbath, of the Independent Christian Universalist church, at Gloucester, Rev. Dr. William H. Rider, the pastor, read a letter announcing his resignation, to take effect next October. This announcement visibly affected many of the congregation. Dr. Rider has been pastor of the church for thirty years and altogether he has been forty-five years in the ministry. The Independent Christian church is accounted the mother church of Universalism in America, having been founded by Rev. John Murray, the father of the denomination in America, in 1774. Members of the congregation are urging the doctor to continue five years more and round out fifty years of active services in the ministry, but he says his decision is final and the result of mature deliberation. Dr. Rider enjoys wide popularity and friendships in Masonic circles. In 1872, he was pastor of the Universalist church, at Arlington, where he still has many admirers and staunch friends. He has frequently been the orator on occasions of moment in Arlington in his Masonic affiliations.

Sunday evening Rev. Lyman Ratledge, of Billerica, will address Follen Guild, his subject being, "The Church, the country and the young people." Our Guild has invited the Billerica Guild to accompany their pastor. Frances Harrington had a birthday party

on Saturday afternoon. She was seven years old and her little playmates helped her to celebrate. They played games and had dainty refreshments and little Frances was kindly remembered.

Mr. John More, of Denver, Colorado, a last summer, intends entering the School

with the following order of service: Organ voluntary, Mrs. Robert Long; invo-cation, Rev. Charles A. Drummond, Somerville; reading of scriptures, Rev. Lyman Rutledge, Billerica; sermon, Rev. Charles F. Dole, D. D., Jamaica Plain; prayer of installation by Rev. Loren B. MacDonald, Concord; solo, Miss Abbie Fletcher; welcome to the town, the Rev. John Mills Wilson; address to the people, Rev. Henry Lutz, Newton; benediction by minister. It is hoped that many will be present at the happy occasion and show their interest in the old church which Dr. Follen hoped would be a bless ing to our town.

The monthly meeting of the E. L. M. C. was beld in the vestry of Follen church. Monday evening, Jan. 27. A fine supper was served by the supper committee,-Alexandr Wilson and associates, -after which a short business meeting was held. Three new members were voted into the club. A committee to nominate officers for the year was appointed by the president, consisting of Frank D. Peirce, Oscar Needham, Lucius A. Austin, Chas. G. Kauffmann, H. W. Cobb. After the business meeting the ladies were admitted and the evening was turned over to the entertainment committee, which provided a very enjoyable evening's entertainment, consisting of piano solo, Leonard B. Wiley; Irish sketch, Frank Fletcher; harmonica solo, J. J. Ventura; Irish sketch, John Wright; plano solo and song, Leonard B. Wiley; minstrel sketch, Messrs. Wright and Fletcher; harmonica solo, J. J. Ventura, and concluding by singing

We are informed that there was a splendid attendance at the Guild meeting, last Sunday evening. Rev. Mr. Pickett's talk on child labor was very interesting He spoke of the origin of child labor in England in the seventeenth century. It was at the time that machinery was just being invented and people found that children, even those four and five years of age, could do some of the work as well as men, so it was at this time that they began to use them taking them from the poor houses, but later, poor men began to hire their children out. Mr. Pickett said that

Friday evening, Jan. 24th, the report from those who attended the Bingville dance is that it was one of the merriest and jolliest dances ever participated in. All regretted that there was not a larger local talent. The walls of Village Hall tory, were most artistically decorated with "Yokel" lanterns, and banner signs and other unique ornamentations. Chester Earl sat at the receipt of customs and drove a brisk business as it is estimated that about one hundred and fifty were present. There were many wall flowers vho drank in the spirit of the music and merry dancers. Sls Hopkins, of Calamity Corners, was the most strikingly dressed personage of the evening. Her costume its meeting Monday evening, by the presiwas wonderful to behold. A very attractive group was the Seven Sisters, daughters of Mrs. Hester Jones of Slab City. They were dressed alike, in white, with grandson of the late John D. Bacon, who resided many years in our town and who was graduated from Dartmouth College unable to be present. Doc' Livermore, of Bingville notoriety, did not even look of Biology in connection with Harvard in upon the party, but very fortunately there was no need of a doctor's services. -Mrs. Jane D. Stetson, widow of Josiah W. Stetson, of Dover, N. H., died Monday night, Jan. 27th, at the home of her daughter, Mrs. Fred M. Goodwillie, Westmoreland avenue, Arlington Heights. Mrs. Stetson was about the house Monday morning, and while in the kitchen of the daughter's home she fell. Later she was able to go to her room, but complained of a pain in her head, and gradually lasped into unconsciousness. Medical assistance was summoned, and it was found that Mrs. Stetson had suffered a shock which brought on a cerebral hem-orrhage, causing her death Monday night. Mrs. Stetson's maiden name was Jane D. Brown, and she was born in Eaton, N. H., May 20, 1833. April 1, 1850, she married Josiah W. Stetson, of Bath, Me., and the couple went to Dover, N. H., to make their home, and lived there from 1850 until 1898. They were widely known and enjoyed the esteem of all. On the death of Mr. Stetson the widow made her home with her children. For the past three years she has lived with Mrs. Goodwillie. Mrs. Stetson was a member of the Washington Street Free Baptist church of Dover, N. H., and a life-long member of Purity Rebekah Lodge of Dover. She is survived by three daughters, Mrs. John P. Lovell of Mobile, Ala., Mrs. Fred M. Goodwillie of Arlington Heights and Mrs. John H. Bragdon of Haverhill, also two sons, Willis S. Stetson of Dover and George H. Stetson of West Somerville. There are six grandchildren. The funeral was held Thursday morning, at 11 o'clock, at the residence of her daughter. Rev. George A. Dean of the Park Avenue Methodist church, Somerville, officiated. Burial was at Pine Hill, Dover, N. H.

Dancing Party.

Miss Elouise Hunt gave the second dancing party of the series she is managing this winter, in Crescent Hall, Arlington Heights, on Saturday evening of last week, which was attended by one hundred guests, made up of friends from the Heights and the center of the town, besides others from out of town. The hall was a bower of beauty with its decorations of laurel and evergreen. The windows were framed in the evergreen and, combined with red and green crepe paper, made a lovely decoration, which was enhanced by several white doves suspended from the ceiling, that gave the appearance of their flying through the

Custer's orchestra played for the dancing and, as usual, was an incentive for all to dance the light fantastic, including the Boston, the society glide, Gaby glide and assembly gavotte. The ushers were Messrs. Wm. Bunton, W. H. Hatch, Alfred H. Myers, C. G. Parsons and Wm. Rice, who presented the guests to the matrons, who were Mesdaines Clarence T. Parsons, Frank W. Hodgdon and Walter F. Robinson. All three ladies were in handsome and dressy toilettes,—Mrs. Parsons in lav-ender, Mrs. Hodgdon in cream satin, with black and silver sequins, and Mrs. Robinson in black. The corner where the matrons received was most attractive in its decorations of palms and potted azalias, with a beautiful Japanese screen for the background. One of the attractive features of the

party was the German figure introduced. Miss Hunt gave her lady guests flowered boxes with ribbon handles, in which was a miniature bouquet, and for the men, scarlet paper orders, tashioned after those of the nobility. There were many lovely gowns. The hostess was in pink crepede-chine, with panias in hand-painted dresden flowers. Her mother, Mrs. I. T. Hunt, was in a long trained black evening gown, while the sister, Miss Hunt. was in white satin entrain, combined with crystal trimming and chiffon overdress, with gold slippers and agrette in hair. A charming dress was of Melrose pink messaline, while a bright cheery satin, com-bined with black net and white lace, was a striking dress. Several white dresses were elaborate and handsome, while a blue one was decidedly pretty. Mr. and Mrs. Quimby, Mr. and Mrs. True Worthy White, Mr. and Mrs. Sam'l Cutting were among the dancers. Mrs. Quimby was in a cream chiffon pattern dress, with a Persian border picked out in black; Mrs. White wore pale lavender messaline and black lace; Miss Cutting was in orange satin, combined with stanic of black marquisette. Refreshments of ices and cake were served at intermission. The orders were unique and artistic. Miss Hunt evidently has quite a marked talent for man-aging a successful dancing party.

#### THE RESEMBLANCE.

Although Very Striking, It Was Not Quite Complete.

The tramp sat serene and dirty on the back door step eating the breakfast for which he had whined, and the servant stood looking at him curiously.

Presently the knight of the road observed the attention she was paying

"Wotter yer lookin' at me for?" he asked in idle curiosity. "Think I'm a long lost cousing?"

"No," replied the maid coelly, "but I must say you remind me of a man I useter know."

"Sweetheart?" asked the tramp. "None of your business!" was the maid's retort. "But something happened to him which'll never happen to you!"

"What's that? Died a millionaire, did he?"

The maid's reply was crushing. "No; he was accidentally drowned while bathing!"-Omaha Bee.

Her Fear.

Bismarck was no favorite with women, least of all clever women, who dared to think for themselves and imagine that they could fathom questions of state. He was never tired of snubbing strong minded ladies, putting them down and stamping on them.

One day he paid a visit to the Russian embassy at Berlin, where he behaved as usual, flouting even the mistress of the house, the Countess Schouvaloff herself. He took his leave at length, to the relief of everybody, and presently the family mastiff was heard barking at the great man as he passed through the courtyard. Immediately the countess ran to the open window, and Bismarck heard her voice saying to him in a tone of gentle entreaty:

"Oh, please. M. le Chancellor, don't bite my dog!"-London Tit-Bits.

He Couldn't Understand.

A small boy was seated in the parlor with his sister's persistent young man. Being of an inquiring mind, he asked Mr. Gaysmith, "Do you weigh very much?"

"About 150 pounds, my little man," the hopeful lover responded.

"Do you think sister could lift you?" the boy continued.

"Oh, goodness no!" said the young man, blushing at the mere thought. "But why do you ask?"

"I don't believe she can, either, but I heard her tell ma this morning that she was going to throw you over as soon as she could."-London Weekly Telegraph.

Took a Load Off Mother's Mind. Six-year-old Dora returned unusually

early from school the other day. She rang the doorbell. There was no answer. She rang again, a little longer. Still there was no response. A third time she pushed the button, long and hard. Nobody came to the door! Then she pressed her nose against the window screen and in a shrill voice, which carried to the ears of every neighbor on the block, called:

"It's all right, mamma. I ain't the instalment man!'-Fun.

Same Effect.

"I wish I belonged to a golf club." "Oh. it isn't necessary." "Why so?"

"Just walk ten miles or so over hills and ditches and through bushes and every twenty or thirty yards give the pavement or a tree stump a hard whack with your stick and mutter something between your teeth."-Los Angeles Times.

Trying to Please.

"What makes you so sure that man is going to propose to Gladys?" asked Gladys' mother.

"I have told him the same story five times," replied Gladys' father, "and he laughs at it every time."-Washington Union at 7.00 p. m.

Mrs. Borden Lodge-So you've been boarding with Mrs. Hammond Eggs! She always pretends that she doesn't

Some people say it wasn't luck that made 'em rich and proud. They claim 'twas wisdom, work and pluck that raised 'em from the crowd. don't deny that there's a pile of truth in what they say, And yit it always makes me smile to hear em talk that way.

For instance, there was Henry Woodtaught school here years ago. His teachin' wasn't any good. We had to tell him so. He tried to get another school, but couldn't

Very Queer.

Harry Lauder, the famous Scotch comedian, was traveling by train in a compartment with one or two other people. Facing him was a man who, after peeping at him in a puzzled way over the top of his newspaper, at length summoned up courage to say:

"Excuse me, but you are very like Harry Lauder." Mr. Lauder, very naturally, smiled

broadly. "Are you Mr. Lauder?" the other con-

tinued. "Aye, that's me," replied the comedian.

"Well, that is queer!" the other exclaimed. "I thought you'd been sent to a lunatic asylum!"

The smile abruptly left Mr. Lauder's face, but after a somewhat awkward pause it came slowly back again.

"Oh, did you?" he said. "But, ye see, I'm paid for bein' daft."-London Home Notes.

He Had Heard.

Farmer Turmut had had a good day at market. His cattle had fetched good prices, and, feeling flush, he bought a nice piece of cloth to have made into a suit of clothes.

But, alas, on his homeward way he lost it, a happening which annoyed Mrs. Turmut very much. Full of the grievance, she told the

vicar about it next day, blaming her husband's carelessness for the loss. A week later the vicar met Turmut. "Good morning, Mr. Turmut," said

Mothers

Giving Your Child a Book. "What kind of a book shall father bring you?" a small girl was questioned the other day.

"Oh, any book," came the reply with a happy nonchalance, "as long as it can be my very own and stay up in my room."

She voiced the craving of every child, says Carolyn Sherwin Baily in the Delineator. Your child needs his very own "five foot" bookshelf which he may grow up with and which will meet the needs of his developing and expanding imagination. But each book that we put on this nursery bookshelf should be selected having in mind what it is going to do for the child.

Will it frighten him? Will it hurt his appreciation of beauty by its rude colors and poor art? Will it give him warped, twisted ideas of his world?

Rather, will the book that you put into your child's hands make him happy? Will its illustrations help him to love good pictures? Will it teach him something?

If a child can have only four books it will be possible to give him between the covers of these four all that he needs in child literature during his earlier years.

One book should be very beautiful pictorially. Every baby loves color, and a good colored picture of one of his Mother Goose friends, his pet animals, his toys, will be a feast for his soul almost. He should be taught care in handling it, and turning its beautiful pages will be his happy privilege.

One book will answer the queries of our dear little "question mark." should furnish material to be read to the child to help him understand his environment. Every child is wonderfully, buoyantly interested in animals and stars and trees and waters and the land of little creatures down under his feet. Too often we let his questions in regard to nature phenomena pass unheeded. Let us give him a book that will answer them.

Our third book will be a big, magical collection of child stories-those stories that take a child out of himself and into the places of fancy, stories that make children brave, happy, unselfish.

One more book, a doing one. It will be perhaps more a mother's book than the child's, for it will give hints and helps for keeping small hands active, child eyes wider open, child brain busy. It will be a book of games, of suggestions for child hand work, a book of child busy-ness.

With these four books or many books of each of these four classes a child will begin his home education in an efficient, result making way.

Rules For Rearing Babies.

Rules for rearing babies, accompanied by the statement that children are not to be regarded as luxuries by the poor, were given out recently by Mrs. George Herrick of Boston, who four months ago became the mother of a boy declared by a number of eugenic authorities to be the finest physical specimen that has come within their experience. Mrs. Herrick's directions are as follows:

"Three essentials are fresh air, light clothing and plenty of good nourishment

"Society women should forego society's obligations and nurse their own children. "Every mother should nurse her own

child. "Kissing and fondling of baby should not be permitted for one minute. "Don't toss baby up in the air like a

bouncing ball. "One great secret of household econ-

omy is making your own and your chil-

dren's clothing. "Race suicide is the greatest evil of the day. "The father contributes as much to

the health or til health of a child as the mother."

Called "Infernals." Nothing in the thrilling parratives of many old sea fights appeals more strongly to the modern imagination than the doings of the tireships.

The idea of using incendiary vessels for the destruction of a hostile fleet was of great antiquity. They are said to have been employed at the slege of Tyre in 333 B. C. and again by the Rhodians about a century and a half later. By the English, however, they were first used in 1370, and two centuries later had come to be looked upon as a legitimate naval weapon, their attacks being regarded and dreaded in much the same way as are those of the torpedo craft and submarines at the present time.

belli were the most formidable. The designer procured two vessels of about eighty tons each and laid along their bottom a foundation of brickwork. Upon this he erected a marble chamber with five foot walls containing 3.000 tons of gunpowder, while on the top of this chamber was a six foot layer of gravestones placed edgewise. A marble roof rose over these, and upon it was piled a quantity of round shot, chain shot, millstones, blocks of stone, iron shod beams and anything beavy which would cause the explosion to take a lateral effect. The effect of this floating volcano was appalling, for the masses of stone and shot, disintegrated and flung skyward by the explosive, fell and destroyed any vessels, buildings or men in the vicinity.

#### THE WORLD'S TELEPHONES.

Europe Makes a Poor Showing Compared With This Country.

It has been roughly estimated that of the 10,000,000 telephones in the world 7,000,000. or 70 per cent of the whole number, are in America. 2,000,000 in Europe, with the remainder scattered over the earth's surface.

The reason why Europe presents so poor a comparison in this respect with America is said to be because four or five of the most civilized and populous countries are extraordinarily backward in telephonic development. France, Austria, Hungary, Belgium, the Netherlands and Italy, in the first four of which the telephone is entirely in the hands of the government, may be instanced. In the whole of the French republic, it is estimated, there are few more than 200,000 stations, and in Austria and Hungary combined there are actually fewer phones than in Chicago.

Ancient cities of universal renown prosperous and thriving places of from 400,000 to 500,000 inhabitants, in many cases centers of great commercial importance, such as Lyons, Marseilles, Naples, Antwerp and Prague, are far behind American towns with 50,000 to 100,000 people, such as Peoria, St. Joseph, Dayton and Norfolk, towns that Europeans in many cases have never heard of, while Vienna, with a population somewhere near 2,000,000, has not so many stations as San Francisco with one-fourth that many inhabitants. If the countries of central and western Europe were as well provided telephonically as Great Britain and Germany to say nothing of Scandinavian countries, the old world's phone statistics would compare far more favorably with those of the new.-New York Tribune.

Put Petitions In Golf Holes.

The amir of Afghanistan has taken up golf keenly and has had good links laid out in the neighborhood of Kabul. The natives were much puzzled by the well kept greens; but, recognizing the game as a royal one, they put the holes to a practical purpose. They got into the habit of placing petitions in the holes at night in the hope that they would reach the amir when be was putting next day. But his majesty's temper apparently was not improved by the royal game. He resented this attempt to take advantage of his recreations and ordered that all such petitions be burned unread.-London Mail.

Paris Pawnshop For Autos.

The Mont de Piete, the great pawnshop of Paris, is taking thought for those of its patrons who may be automobilists or aviators. Its authorities are now negotiating for the acquisition of an immense garage, capable of holding 2,000 cars, so that people who pawn their automobiles may be able to leave them there and thus avoid the present expense of at least 6 francs a day, which pawning an automobile has hitherto meant. Space will also be provided for aeroplanes.-New York Sun.

Two Narrow Escapes.

Not since a baby fell out of a New York city elevated car window and landed uninjured in an astonished citizen's arms has a more curious accident happened than one that occurred recently on a Ninth avenue elevated train. The man's, life was saved by the remarkable coincidence.

Simeon the Second.

King Ferdinand is said to be making not only a change of religion, but a change of name to Simeon II., when finally he assumes the title of emperor of Bulgaria. The O'Dowd sell is, however, not altogether new. Some years ago John Roche, an Irish member, gave a beautiful picture in words of the natural advantages of a roadway that he named as Woodford harbor and assured the house that its shelter was unsurpassed and that if it were properly dredged the whole British fleet could safely ride at anchor within its coast lines. He threatened to divide the house unless satisfactory assurance were given that something would be done for this neglected harbor. The head of the admiralty promised to give the matter his immediate and personal attention. The next morning all Ireland was in a roar of laughter, for Woodford is even farther from the sea than Manorhamilton. Mr. Roche, it seems, is the owner of a duck pond, and the natives now call this sheet of water Woodford harbor.-Exchange.

#### PLAN TO FLOOD SAHARA.

Revival of the Scheme to Turn the Desert Into a Sea.

The De Lesseps project for flooding a portion of the Sahara has been revived. In the extreme south of Tunisia is a tract of land, some of which is hundreds of feet below the sea level. A string of "schotts," or small salt lakes, occupies a portion of the depressed area, which is barred from the Mediterranean only by a few miles of sand flats, never 100 feet above the level of the sea.

Manifestly the flooding of such an area so placed is an easy task for modern engineering. The question is whether the project will pay. In addition to the first canal, several shorter canals would have to be dug to conduct the water to isolated portions of the depressed region. The extent of country which might be flooded has been estimated variously from 6,000 to more than 20,000 square miles.

Just what good will come of the proposed desert flooding is not clear. It could hardly make much change in climate or rainfall, and it would not lead to any important commercial developments. But it can be done, and perhaps it will be done, just as an evidence that man has become boss of the earth and is making it to suit him.-Chicago Journal,

Extemporaneous Speaking.

The strangest excuse for "extemporaneous speaking" is given in a story told by Dr. George L. Perin of the Franklin Square House. While traveling he formed the acquaintance of a clergyman who was fond of "talking shop." "Never prepare your sermon in advance," counseled the cleric. "Why?" asked Dr. Perin. "Well, if you put it into writing the devil can look over your shoulder and will then go and nullify in the hearts of your people every word you have uttered. As for me, I never put pen to paper. I just make for the pulpit, and the devil himself doesn't know what I'm going to say!"-Boston Traveler.

How Vienna Helps Brides,

Lectures for brides is the name of the latest course started by the Viennese institution for popular instruction known as the Urania and now advertised all over the city. The lectures will cover such subjects as housekeeping, cooking, hygiene, elementary physiology and the care of children. Though mainly intended for those who are about to be or have just been married, all girls over seventeen will be admitted. The course will last for eight months, there being lectures on two evenings a week. A small fee is charged for the course, but the poor can obtain tickets free.-Vienna Cor. London Standard.

A Weed That Steals Oysters.

A seaweed has invaded the oyster beds of France and carried off 400,000 oysters. It has carried them off bodily, as a thief would do. The minute seeds of this weed float up the English channel in the current of the gulf stream, they settle on oysters in the Breton beds of Morbihan, Quiberon and Belle Isle, and they grow to the size of a fuck's egg. They are full of water, but at maturity the water evaporates, and air takes its place. The egg shaped seaweed is then a balloon, and, like a balloon, it lifts its oyster from the bottom and bears it out to sea .- Philadelphia Bulletin.

Conditions In Bulgaria.

Bulgaria is said to be approaching the ideal state of latter day social reformers in that it has neither a very poor class nor a very wealthy class. In the towns there are cases of individual want and misconduct, but these cases are few and insignificant. There is no need to make any public provision for the relief of the poor; there is no question of the conflicting interest of workmen and employers; strikes and trade unions ere alike unknown.-Ar-

## **# THE MINISTER'S** SURPRISE.

There Were Two Sides to It.

By KATHERINE YOUNG THAXTER.

The Rev. Calvin Morris was quite an-

He was in anything but a ministerial mood when he tossed his hat on the table amid the confusion of books and papers and sat down in his study to situation that at first he had been mild- him? ly amused at it, but now-pshaw! Why couldn't he ignore it?

But it had passed the stage when it could be ignored. In the past three days he had been told five times that his congregation would like very much to see him married. Nor had these remarks been the half jocular words on his bachelor condition that he had often heard since coming to the church at Littleton, but had been earnest words of advice expressed by the most prominent members of his flock.

He was popular in the parish, and his two years' pastorate had been productive of good results, but there had been one thing lacking.

Accustomed for years before his advent to the service of a most devoted minister and his able wife whose home had been the center for a vigorous church life, the people simply could not their minds on it I tell you I was in a get used to a minister in a boarding house. Besides, there stood the fine new parsonage empty. Certainly it was his duty to live up to the demands of his people. When Miss Gilbert, the wealthy maiden lady who had contributed so much to the church, both in money and good deeds, died two years ago the parsonage she was building for the church was not quite finished.

The Rev. Calvin Morris knew he would use it in time. Indeed, all unknown to his people, vague plans had you have really and truly married that been floating through the minister's domineering person, 'Miss Nell?' head for some months, and he had frequently looked very reflectively at the quiet house beside the church.

But the real vexing, disquieting point of the whole matter was that the congregation had not only decided that he should marry, but apparently had fixed on whom he should marry. This was | did not know you were in the church assured the night he took tea with Mrs. Thorpe, one of the most active ladies in his church, when the chief topic of conversation was Miss Nell Gilbert.

Now, Mr. Morris had taken a most unreasonable and unministerial dislike to Miss Gilbert, a member of his church whom he had never seen. She ree the piece of the great Miss Gilbert and had lived with her aunt until the latter's death, when the great house on the hill had been closed. Since then the young lady had traveled, so the minister had never seen her. He had heard a great deal of her, though, and had formed an impression of a person of undoubted energy and ability, accustomed to have things just as she wanted and inclined to be domineering. "Miss Nell" had ideas of her own on church music. "Miss Nell" had designed this and had attended to that. It seemed to the minister there was a little too much of "Miss Nell" every-

where. Tall and muscular and aggressive himself, accustomed to shouldering burdens and clearing difficulties, the Rev. Calvin had, of course, an ideal of feminine grace very different from his own vigorous personality. Indeed, as he sat thinking in his study that morning a smile rose to the firm lips and softened the austere lines into which he had framed them as he saw in his mind's eye a petite, graceful form, soft, appealing dark eyes and masses of cloudy brown hair. Alas for the plans of the people who had made up their minds that "Miss Nell" and the minister would be an eminently well fitted pair.

But the vision faded quickly, and the many hints that had been dropped during the last few days flashed in rapid succession through his mind. "Miss Nell" was coming home next head and she at his by his well meaning flock until something happened. Already the subject had assumed alarming proportions. He could not, he would not, stay round and be made a football of, to be tossed into any woman's arms.

Again came unbidden that alluring vision of brown hair and elequent eyes. It was preposterous! How could they badger him now, just as his heart was beating more madly every day for some one? Ah, if he were only sure! Did that friendship, formed a few short months ago, that soul satisfying friendship, mean to the girl of the vision what it had come to mean to him? Could he, dare he, offer her his love? He had been living since then in a beautiful dream. Suppose that dream should be fulfilled?

He hesitated. Dreaming had been so sweet he feared the awakening. Dare he risk "the last leap?" With a bound he sprang to his feet. He could and he would. He would please himself in the choice of a wife anyway and if fortune favored him give his officious congregation a surprise and a sharp lesson.

A short phone message to a neighboring town secured a supply for next Sunday's pulpit. "Urgent business out all over the church. The minister cerof town" was the message left for the tainly had surprised his congregation. church officers, and the minister found himself on the train bound for the east and the "vision."

The minister's wooing was brief and blunt, but Miss Helen Atwater was not very much taken by surprise. The ac-

quaintance, begun in Scotland the previous summer, had ripened fast on shipboard on the return passage and been brought to fruition by some months of correspondence. She even consented to a speedy marriage, and as she was living with a married cousin in Boston the minister took his bride from there ten days from the day he left Littleton.

But the blissful days of his honeymoon failed to blot out entirely the remembrance of his church and his work and his people. True, in the tumult of happiness that had possessed him since that day when their clumsy interference had driven him-actually driven him-into the joy that was now his he had almost forgotten their plans for him, but now it all came back to him, and he realized that he did owe them something, for who knows how long he would have doubted and feared had think it over. It was such a ridiculous not the terror of "Miss Nell" been upon

> Suddenly the minister laughed aloud. It was all so funny to him now. Mrs. Morris, sitting beside her husband, was astonished at his mirth and looked it.

"Well, dearest, I know you'll think me crazy, but it is really too good to keep. You didn't know that I asked you to marry me so as to prevent my congregation marrying me to some one else, did you?" And out came the whole story, his mental picture of "Miss Nell" and all.

"You know," he concluded, "I never for a moment thought of her side of it. I was concerned for my own safety. What in the world a woman like her. with money and property and the world at her feet, would want with a poor struggling minister I can't conceive. But I had heard so much of her and the people so evidently had set regular funk over it. It drove me to put my timid hopes to the test for you. sweetheart."

There was a peculiar smile hovering around Mrs. Morris' lips, and for a minute or two she said nothing.

"What is it, dear?" asked the minister anxiously. "You are not vexed?" "N-no," hesitatingly, "not exactly. but I am just thinking how beautifully you have played into your congrega-

tion's hands, for, do you know, Calvin, "Married Miss Nell!" repeated the minister blankly, staring at his wife's

flushed, laughing face. "Yes, truly. I am Helen Gilbert Atwater, called 'Miss Nell' at the old home in Littleton. Listen, dear. I had no thought of deceiving you at first. I at Littleton till we reached New York on our voyage home. You know we were pretty well acquainted then, but I-neither of us knew our own heart. I often intended to tell you in a letter, but somehow I couldn't. I felt that if you knew it might make a difference. You were poor, comparatively. I had all that money and property. Andand I loved you, dear, too much then

to have you leave me. "Then at the end you took me by storm. I have been too happy to talk of anything like that, and I had been waiting till you would say something of your work to tell you all about my-

"But, my dear, why Atwater? It was always, Miss Nell Gilbert." The minister was still bewildered.

"Yes, my aunt did not like my father, the man whom her young sister married, and never mentioned his name.

"I was always called Gilbert at home, but of course I had no reason for discarding my name. There are plenty of people in Littleton who know my real name, but never used it, for I was but a baby when I went to live with my aunt after my father's death. Really, dear, you needn't be alarmed. I am not half as bad as I was painted. I won't try to run the church or manage the organist or-or"-

"Or any one except the minister." finished her husband. "Well, the surprise is certainly on me, but I must get even with those people some way."

The news of the minister's marriage spread like wildfire through the town. He had sent a laconic message to one of his church officers to the effect that he had been married in Boston and would occupy his pulpit the following Sunday. That was all. Married, after all, and none of his congregation knew a word about it. Who was she? Noweek. He would be thrown at her body knew. Conjecture was rife on every point, and one version after another of the story of his wedding found quick credence. Some of the older members of his flock were thunderstruck. To think that Mr. Morris should trick them like that and be engaged all the time! They had just set their hearts on his marrying "Miss Nell," whom every body knew and loved. They were accustomed to "Miss Nell" and her ways. But a stranger to steal their beloved minister!

All week long the tongues wagged incessantly over the minister and his bride, but at Saturday midnight no one had seen either of them. The church was packed Sunday morning. The bells had ceased ringing, and only a few late comers saw the Gilbert carriage drive up to the door and the minister and a lady alight from it.

Straight up the middle aisle he led her, sweet and demure looking, while the organ played softly and the silence of the church could be felt. At the Gilbert pew he left her, and the congregation had a good view of the sweet face framed in the masses of soft brown hair. Mrs. Thorpe almost jumped out of her seat. It was none other than "Miss Nell." Glance followed glance

#### A Rare Performance.

The cast which gave "Alias Jimmy Valentine," in Lexington, two or more weeks ago, repeated the performance in Town Hall, Belmont, on Saturday evening of last week, under the auspices and for the benefit of the Ladies' Hospital Aid Society of Belmont. The cast was made up of Lexington people with the exception of Mr. and Mrs. Geo. L. Wilson, of a most finished and charming impersonation of the heroine of the play. There were one or two substitutions at this time in the cast, Mr. Leburton K. Blodgett not only took the part of the clerk originally played by Chas. D. Wiswell, but also the character role of "Dick the Rat," far excelling even the work of Mr. Burnham, the coach, who appeared in this part. His brilliant success in the

role was followed by a round of applause. their Town Hall was not only crowded in every part, but people had to be turned away for lack of space to sit or stand. Belmont people have been kind enough to say that it was the finest dramatic performance ever given in that town. This is generous praise, for the town has enjoyed the reputation of giving the best amateur dramatic performance in all the Boston belt of towns. Mr. Edward W. Taylor, as manager and director of the play as well as the star in the cast, received flattering recognition of his ability in all three capacities. Mr. C. H. fessional at the Boston presentation last winter, and Mrs. E. F. Breed was "better than ever. In fact it was the climax and

#### At the Theatres.

Miss Billie Burke will begin a three weeks run at the Hollis Street Theatre on Monday evening, February 3d, and more than usual interest attaches to the coming of the popular actress this time because she brings with her Sir Arthur Pinero's newest-and many critics say, best-comedy, "The 'Mind the Paint' Girl."

Miss Burke had remarkable success in into her own as an actress of unusual merit and power.

Miss Burke has the title role—a London musical comedy star who has achieved fame by singing a song entitled "Mind the Paint,"—a typical girl of her kind. Born over a small grocer's shop, brought up in the streets, her pretty face and nim-ble wit and still nimbler heets have pushed oolidge, and F. A. Hortter; Registrar, liss Abbie Russell.

It is the story of the one real love affair in her life that Pinero, the master playwright, tells in his very best and most interesting style. It is easy to believe that the role is one exactly suited to Miss Burke. In the cast with her are Shelley Hull, H. E. Herbert, Norton Selten, J. Palmer Collins, Lydia Rache, Ethel Intropidi, Edith Campbell, Mabel Frenyear, Hazel Leslie and a full score of others. The stage settings are up to the usual Charles Frohman standard. Lexington Golf Club links have been club, the Club, on Saturday evening of last week, was attended by some thirty or forty young people and a few chaperons. Four pieces of the Bellevue Orchestra played the fascinating music which goes so well with the Boston, the society glide and the Gaby glide. Several of the dancers were quite experienced in these dances and danced them gracefully. This is not always true of these rather pronounced types of dancing which some circles deem too much in the nature of a vaudeville our local hockey stars.
